Core Requirements - BA Degree in Drama Design

Admission to drama major status requires completion of Drama 201. A student must receive 2.50 or higher for the course. Intended drama majors must meet with the Drama Advisor and add their name to the intended majors list.

Drama Majors who fall below a 2.00 GPA in Drama courses will be placed on probation for one quarter. If the student does not raise the GPA to a 2.00 after that time, he or she will be dropped from the major and returned to pre-major status. Students dropped may petition the School of Drama for readmission.

Undergraduate majors are required to take a core of theater performance, history/theory, and design and technical courses plus drama electives at the 300-400 level. The student must also satisfy the General Education requirements established by the College of Arts and Sciences. Awarding the BA degree requires a minimum of 180 credits and a minimum 2.00 grade-point average.

*While we strongly prefer that students take the theatre history sequence in order, it is not required. We also recognize that there are special circumstances that prevent taking a course in the theatre history sequence, including transfer students, double majors, study abroad conflicts, etc. In this situation, a student may petition to substitute another course from the College of Arts and Sciences. A student must submit the undergraduate course petition and a copy of the proposed course syllabus to the academic advisor who will discuss the substitution with the Head of the BA Program.*

**REQUIRED COURSES:**

**Acting:** (10 credits)
Drama 251 Beginning Acting (5)

**Design & Technical Theater:** (12 - 13 credits)
Drama 210 (scenic design & construction) (4)
