Hedda Gabler
By Henrik Ibsen
Directed by
Edward Kuznetsov
October 29th-31st

The year is 2062, and the Tesman family is gearing up for Halloween. Featuring a badass Hedda, an A.I. George and playboy Brack, this production addresses issues of gender and power dynamics that existed during its first performance in 1891, plague today's society and will continue to haunt us in the future. Hedda Gabler reminds today us of the weight a patriarchal society has on all those that exist within it.
